

Environmental Protection Agency

§ 35.4055

(1) The presence of an actual or potential health threat posed to group members by the site (this criterion can be met by establishing a demonstrable threat to members' health or a reasonable belief that the site poses a substantial threat to their health) (30 points);

(2) The applicant best represents groups and individuals affected by the site (20 points);

(3) The identification of how the group plans to use the services of a Technical Advisor throughout the Superfund response action (20 points);

(4) The demonstrated intention and ability of the applicant to inform others in the community of the information provided by the Technical Advisor (20 points); and

(5) The presence of an actual or potential economic threat or threat of an impaired use or enjoyment of the environment to group members that is caused by the site (this criterion can be met by establishing a demonstrable economic or environmental threat to group members or a reasonable belief that the site poses a substantial economic or environmental threat) (10 points).

§ 35.4040 Notification process.

(a) Groups wishing to apply for a TAG should first submit a Letter of Intent (LOI) to EPA. EPA will respond in writing to an LOI. A grant application submitted by a community group without having first submitted an LOI will fulfill the LOI requirement, thus initiating the notification process.

(b) Upon receipt of the first LOI, EPA will undertake certain activities depending on the schedule for work at the site:

(1) If commencement of the remedial investigation or a removal action is not underway or scheduled to begin, EPA will advise the group in writing that grant applications for the site are not yet being accepted. EPA may informally notify other interested groups that it has received an LOI; or

(2) If a response action is already underway or scheduled to begin, EPA may conduct mailings and/or meetings, in addition to the required public notice, to provide formal notice to other interested parties that a grant for the

site soon may be awarded. These formal notification activities will generally be conducted far enough in advance of the start of the response action to allow time for groups to consolidate, apply for and receive a grant award, and procure a Technical Advisor before work commences at the site.

(c) Other potential applicants will have 30 days to contact the original applicant to form a coalition. If the community groups are unable to form a coalition, they must notify EPA within the 30 days. EPA will then accept separate applications from all interested groups for an additional 30-day period. EPA may consider written requests for extensions of this time. If there is a qualified applicant, a grant will be awarded from among the competing applications based on the evaluation criteria described in § 35.4035. The schedule for response activities at a site will not be affected by the TAG application process.

§ 35.4045 Submission of application.

(a) After meeting the LOI requirement, the applicant must then submit a TAG application on SF-424.

(b) An applicant must submit a budget clearly showing the proposed expenditure of funds, how it will provide the cash and/or in-kind contributions to meet the "match" requirement, and how the funds and other resources, including the "match" will be used to complete the TAG project. As part of the application process, the applicant must submit the following certifications:

- (1) Drug-Free Workplace,
- (2) Debarment, Suspension, and Other Responsibility Matters, and
- (3) Anti-Lobbying (if the grant is \$100,000 or more).

§ 35.4050 Timing of award.

An award of a TAG will be made no earlier than the start of the response action. Grants to qualified applicants could be delayed depending upon the availability of funds for the Superfund program.

§ 35.4055 Ineligible activities.

The following activities are ineligible for assistance under this program:
